THE AQUILA CREED

“True luxury is not found in the noise of the everyday, but in the profound stillness of nature. It is a quiet confidence, an effortless sophistication, and a life lived in deep connection with a place that calms the mind and nurtures the spirit.”

— THE VISION OF AQUILA

AN INVITATION TO STILLNESS.

Life is demanding. The daily rhythm of the city and the pressures of the modern world can leave us yearning for a true escape—a place to breathe, to reconnect, and to find a more authentic way of living.

Aquila was born from this understanding, and from a deep, personal love for Harrison Hot Springs.

ROOTED IN HARRISON

As local residents ourselves, we believe Harrison Hot Springs is more than a destination; it's a feeling. It's a place of profound peace and power. Our vision is to share this experience by crafting exceptional wellness communities that honour this incredible setting.

Brought to life by **Saltus Developments** — local developers devoted to creating soulful, wellness-centered communities inspired by Harrison's natural beauty.

This commitment is seen in our celebrated sister project, Ancora on the Lake, and continues with Aquila—the next evolution in our “wellness series.” It is our promise to deliver a sanctuary of unparalleled quality, born from a genuine passion for this community.
